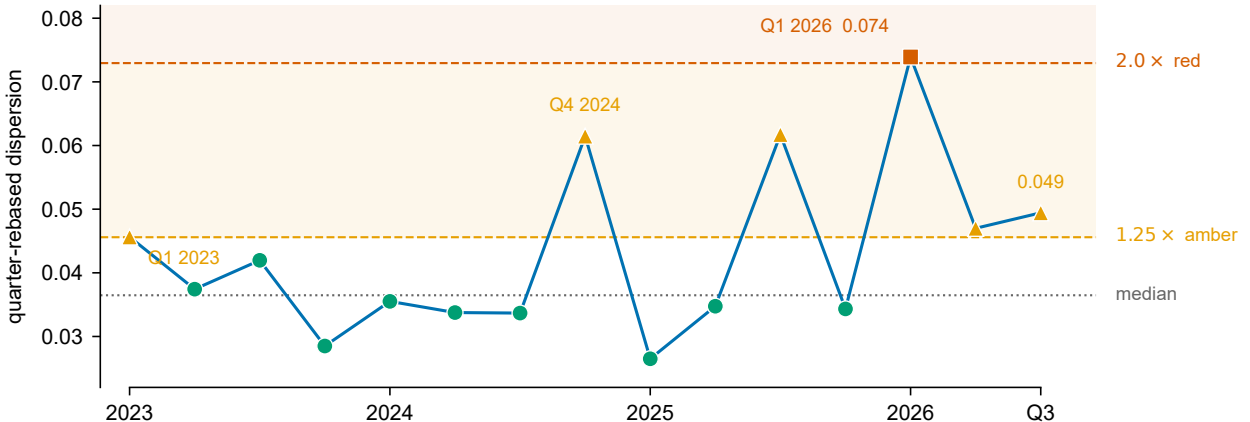
Only Q1 2026 crossed red; Q3 2026 is amber, still above the 2023-24 median



Reading guide: each marker is one quarter of BDC price dispersion (15-name panel, prices rebased to that quarter's first close; the reading is the median of daily cross-sectional standard deviations). Circles green, triangles amber, squares red. Grey dotted line: 2023-24 median (0.037 in the text). Orange band: amber zone. Vermillion band: red zone. Series ends Q3 2026.
